

City of Ketchum
Public Works

NOTICE

TO: Snow Contractors
FROM: Ketchum Street Division
SUBJECT: Snow Stakes
DATE: September 6, 2017

City of Ketchum property owners, contractors and renters can no longer use steel for snow stakes or road markers in the ROW. The steel can be very dangerous to pedestrians, vehicles and equipment.

If you will be placing snow poles near the roadway, please place them at least 2 feet from the edge of the asphalt. Snow markers near the roadway may be removed during snow removal activities during the winter. The purpose of the markers are to establish the edge of the roadway for winter operations.

Thank you for helping to keep pedestrians safe and to avoid unnecessary repairs to vehicle and snow removal equipment. If you have any questions please call our office at 208-726-7831.

Brian Christiansen
Street and Facilities Maintenance Superintendent
